L&T Technology Services earns recognition as a John Deere “Partner-level Supplier”

Illinois, U.S.A, September 04, 2018: L&T Technology Services (NSE: LTTS), a leading global pure play engineering services company, has earned recognition as a Partner-level supplier for 2017 in the John Deere Achieving Excellence Program. The Partner-level status is Deere & Company’s highest supplier rating.

L&T Technology Services was selected for the honor in recognition of its dedication to providing products and services of outstanding quality as well as its commitment to continuous improvement. Company employees accepted the recognition during formal ceremonies held in January 2018 in Moline, IL.

L&T Technology Services is a supplier of Engineering Solutions to John Deere’s operations in North America and India. Suppliers who participate in the Achieving Excellence Program are evaluated annually in several key performance categories, including quality, cost management, delivery, technical support and wavelength, which is a measure of responsiveness.

John Deere Supply Management created the program in 1991 to provide a supplier evaluation and feedback process that promotes continuous improvement.

Remarking on the recognition, **Antoine Kmeid, Vice President and Head of Peoria design center, L&T Technology Services said**, “We are honored to be John Deere’s ‘Partner-Level Supplier’, and will continue in our efforts to deliver engineering solutions and services of outstanding quality to our global customers.”

About L&T Technology Services Limited:

L&T Technology Services Limited (LTTS) is a listed subsidiary of Larsen & Toubro Limited focused on Engineering and R&D (ER&D) services. We offer consultancy, design, development and testing services across the product and process development life cycle. Our customer base includes 52 Fortune 500 companies and 51 of the world’s top ER&D companies, across industrial products, medical devices, transportation, telecom & hi-tech, and the process industries. Headquartered in India, we have over 13,000 employees spread across 16 global design centers, 27 global sales offices and 42 innovation labs as of June 30, 2018.
